

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1 and 2 (canceled).

3 (new). An apparatus for fastening a butt end of a constructional element to a spectacle lens, the butt end overlapping an edge of the spectacle lens, comprising two parallel plastic fastening pins integral with the butt end and projecting therefrom, the plastic fastening pins having annular enlargements of barb-shaped cross section, two plastic sleeves inserted in bores in the spectacle lens, and a joint stop head connecting the two plastic sleeves and overlapping the spectacle lens edge, the plastic fastening pins engaging the plastic sleeves from an end of the bores opposite the stop head and with the annular enlargements interlocking with the plastic sleeve walls under deformation of the sleeve walls, and the plastic of the fastening pins having a modulus of elasticity corresponding to at least three times the modulus of elasticity of the plastic of the sleeves.

4 (new). The apparatus of claim 3, wherein the plastic of the sleeves is a crystalline plastic material and the plastic of the fastening pins is an amorphous plastic material.
